

Sunlight Saunas,

I can't thank you enough for changing my life! After being diagnosed with Fibromyalgia about two ½ years ago I went on a search for answers. I was dealing with severe joint pain, muscle fatigue and depression amongst other health issues relating to my Fibromyalgia. I couldn't climb my stairs without having to lie down in bed until I could regain my strength. There would be days when I didn't get out of bed and couldn't sleep for more than 30 - 45 min. without having to flip over because my pressure points were so painful. My kids couldn't sit on my lap, hug me too hard or even hit me on the arm joking around due to the pain. My family MD wanted to treat my Fibromyalgia with drugs. I personally felt that wasn't the answer. I knew my diet was terrible and my lifestyle had much to be desired. I worked in hair and nails for 20 years and my toxin levels were extremely high, which contributed to my poor health. I searched out a local chiropractor that worked with me on my diet as I continued to search for answers.

One of the first books I read was by Kevin Trudeau, "Natural Cures They Don't Want You to Know About." That is how I learned about the health benefits of Far Infrared Saunas. I continued to read other health books and they were all saying the same things. Far Infrared would benefit Fibromyalgia, Chronic Fatigue, pain relief, detoxification, blood pressure, and many other health benefits. That was all it took I started my research on saunas and the different heaters and found Sunlight Saunas to meet all my requirements and more! I couldn't afford to trust my health to just any sauna. I had to have the BEST. You were the only sauna company to have proven effectiveness along with the most effective heaters on the market! Not only that, I couldn't find a more beautiful and well-made sauna out there!

After speaking with your sales person I decided to purchase the Solo System. Right away I started using my sauna every day. I was so weak when I started I could only handle 10 min. on a low setting and with time I worked my way up to 30 min. every day and sometimes twice a day. I'm so pleased to say in two short months I no longer experienced pain due to my Fibromyalgia! My energy levels increased and I feel alive again! Every few weeks my naturopath would test my toxin counts which continued to drop!

My doctors were advising me to get out of the cosmetology business due to my health but I wasn't sure what I wanted to do. We were all so impressed with the progress I was making I decided to contact the company to see how I could become a distributor! The rest is history. I now own an exclusive Sunlight Saunas store in Zanesville, Ohio and continue to help others regain their health with Sunlight Saunas. Oh, and by the way, my naturopath was my first customer!

Sincerely,

Tina Wagner
