

OPTIONAL SO Sound Therapy System

Add another layer of experience to your Sunlighten™ sauna.

This ground-breaking technology is the heartbeat within your Sunlighten™ sauna. SO Sound Therapy delivers sound waves to create a musical massage that harmonizes all systems of your body. Attached at specific locations within your Sunlighten™ sauna, the SO Sound System uses an amplified audio signal to resonate waves to the surface of your sauna.

Experience a musical massage in your Sunlighten™ sauna as the vibrations of your favorite music send you on a journey of rejuvenation, relaxation and well-being.

*Sound Therapy from SO SoundHeart® Technology
The benefits of Sound Therapy include:*

*Muscle relaxation
Pain relief
Improved circulation
Reduction in chronic stress
Lowered blood pressure*

Listening to music and feeling it resonate make you more aware of the tensions in your body. Coupled with musical harmonic resonance, your body's natural response relaxes stressed muscles and joints. As your bones resonate with the calming vibrations, neuron-pathways to the brain are activated, helping you achieve a more-focused state of mind and balanced heart rate.
